Importation of Genetically Modified Crops to Swaziland

We acknowledge receipt of your email pertaining to importation of Genetically Modified Organism to Swaziland. Swaziland has adopted a precautionary approach to GMO issues. Our legislation is presently being debated in parliament; in that case GMO importation is not allowed to Swaziland.

Concerning food aid the Swaziland Environment Authority recommend that such consignment be milled by the donor agency prior to importation to Swaziland.

We look forward to your cooperation.

Yours sincerely

J.D. Vilakati

EXECUTIVE DIRECTOR
